

# Welcome to Selimo Chiropractic, LLC!

When a person seeks the services of a chiropractor, it is essential that they fully understand the objectives of that particular chiropractor.

I have one goal at Selimo Chiropractic, LLC that is to restore and maintain the integrity of the spinal cord and the nerve roots. These vital nerve pathways are located in and protected by the bones of the spine. Misalignments of the vertebrae (bones of the spine) which interfere with the function of these nerve pathways are called **vertebral subluxations**. Subluxations are caused by many of the things you do **everyday** and keep your **whole** body from functioning properly. It is my absolute conviction that the **body is always better off without this interference**.

Consequently, the objective of Selimo Chiropractic, LLC is to provide a chiropractic adjustment to correct subluxation thereby restoring normal nerve function. It is not the objective or intention of Selimo Chiropractic, LLC to fix, treat or attempt to cure any physical, mental or emotional ailments or to give advice about any ailments. **With a proper nerve supply your whole body is better able to reach its full potential and to express more life.**

The information I receive from you is important. I ask only that which is necessary for your care here at Selimo Chiropractic, LLC. Please fill out the forms completely and to the best of your ability. If you have any questions or if there is any information you feel I should know, please mention it to me.

I, (we) \_\_\_\_\_ have read the above, understand it fully,  
and choose to receive chiropractic for ourselves and our family members (listed below) on this basis.
